ORLANDO LEAVES PARIS FOR ROME

LONDON PAPERS DISCUSS WILSON

SUPPORT OF PRESIDENT AND ITALY EVENLY DIVIDED, ALL CAUTIOUS.

By the Associated Press
LONDON, April 25.—The peace conference crisis continues the paramount topic in London's morning newspapers. The support they give President Wilson and Italy is about evenly divided, but all opinions are expressed cautiously with the manifest desire to show friendliness for both sides. Two papers vehemently attack the president, one of them saying, "Mr. Wilson's name among the allies is like that of a rich uncle and they accept his manners out of respect to his name."

Among Wilson's war advocates is the Daily News which regrets that "Orlando's reply contains much which cannot be substantiated." The Laborite Daily Herald frankly accuses Great Britain, France and Italy with being out for plunder.

ITALIAN SITUATION STILL GRAVE, SONINO REMAINS IN PARIS.

By the Associated Press
PARIS, April 25.—Premier Orlando left Paris for Rome at 8:30 o'clock last night, accompanied by Salvatore Barzilai, General Diaz and two other members of the Italian delegation. He was given an ovation by the crowd gathered around the station.

Foreign Minister Conino and other members of the delegation are still in Paris and state that Italy has no intention of withdrawing completely from the conference. It is reported that Orlando will demand a vote of confidence by the Italian parliament. The situation is regarded as still very acute.

TEACHERS DEBATE HERE TONIGHT

ONE TEAM REMAINS IN ADA; ANOTHER GOES TO TAHLEQUAH.

The East Central Normal debating teams will be in action tonight, one here and the other at Tahlequah. Beginning at 8:30 o'clock this evening, Miss Johnnie McMinn and Hughey Gilmore will meet two representatives of the Weatherford Normal in the auditorium of the normal here and will take the negative side of the query, "Should the United States Own and Operate the Railroads within the United States?" Oather Van Meter and George Baker at Tahlequah where they will have the affirmative side of the same question.

The debate here is expected to draw a large crowd. The matter of the ownership of the railroads is interesting to every individual, in view of the fact that the government is now operating the roads of this country. In the past when the students debated this problem, they had only theories to guide them. Now they have examples of government operation.

Prof. M. B. Molloy has been in charge of the debaters for East Central, and they are reported to be ready for the battles.

COVENANT WILL BE CONSIDERED

PEACE CONFERENCE WILL CONSIDER REVISED DRAFT MONDAY.

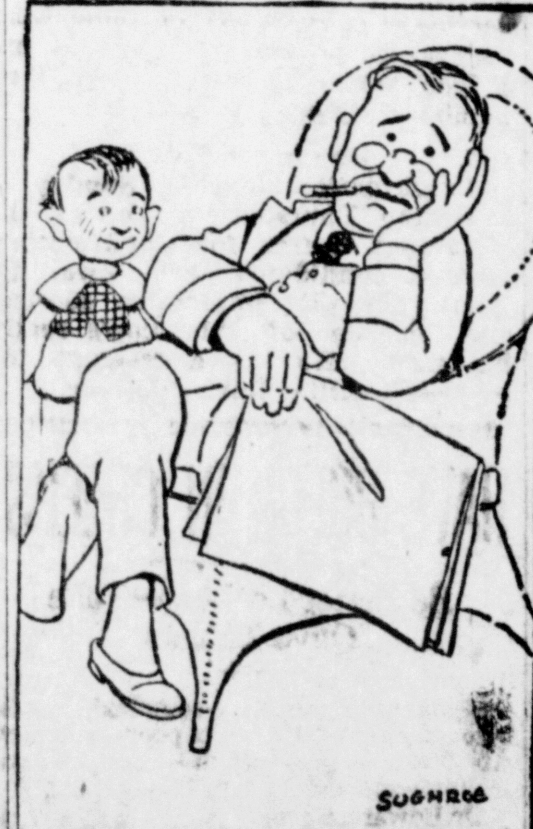

By the Associated Press

PARIS, April 25.—A plenary session of the peace conference will be held Monday to consider the revised draft of the League of Nations covenant and also such portions of the peace treaty as may be complete by that time. The session will be open to the public and it is understood the covenant is approved it will be immediately made public.

German Couriers Arrive.

PARIS, April 25.—German official couriers in advance of the German peace congress delegates arrived at Versailles today.

OBJECTION RAISED BY AMERICANS

NOT IN ACCORD WITH MAJORITY REPORT ON RESPONSIBILITY FOR WAR.

By the Associated Press
PARIS, April 25.—It has become known that American delegates have been unable to agree on certain portions of the report adopted by the commission on responsibility for the war and as presented to the council of four the report contains a memorandum setting forth American reservations. The Americans objected to the principle that accused persons under the "law of humanity" should be subjected to criminal prosecution contending that laws and principles of humanity constitute too uncertain a standard. The principle that heads of states should be subject to criminal prosecution for breaches of positive law was another point where they failed to agree with the majority of the commission.

EUROPEANS WILL EAT WAR BREAD

HOOVER ANNOUNCES NEW REGULATIONS; AMERICA NOT AFFECTED.

By the Associated Press

PARIS, April 25.—Increase in the milling percentage which will virtually put the world back on a war-bread basis for the next three months is part of the program adopted by the supreme food council under the chairmanship of Herbert C. Hoover.

No Change in America.
NEW YORK, April 25.—Americans will continue to eat white bread, despite the return of European countries to a war bread basis, Julius B. Barnes, president of the food administration grain corporation and federal wheat director, said today. A wheat stock survey has convinced the department that the American supply is sufficient to warrant continued production of all wheat flour and meet the export demand until next harvest.

Greedy for Wasps.
The common green frog has been discovered to possess an insatiable greed for wasps. This extraordinary appetite does not seem to be in the least checked by an occasional sting. The protecting color of the frog, which sits motionless upon leaves, no doubt defends the most wary of insects into sense of security.—Louisville Courier-Journal.

COMMISSIONERS AND SOLDIERS FOR ROADS

OKLAHOMA CITY, Okla., April 25.—(Special.)—The city commissioners of Oklahoma City today adopted resolutions approving the proposed \$50,000,000 good roads bond issue. Mayor Walton in a statement to the press declared the capital city owes much to the state at large and calls upon the voters of his home city to aid all counties in securing the benefits of free hard-surface roads as a gift from the state.

The Soldiers', Sailors' and Marines' Club of Oklahoma City adopted resolution of approval of the bond issue, and called attention to the need of employment of returning soldiers and sailors which will be met if the bond issue carries May 6th. The resolution denounces the railroads and special interests now opposing the proposition and calls upon all soldiers and sailors over the state to stand with them as a unit for the proposed system of good roads.

AT THE PLAY HOUSES

LIBERTY.
Earl Williams and Grace Darmond are the stars in the drama, The Girl in His House. This is a dramatization of Harold McGrath's popular novel and exceedingly well staged and acted by a splendid cast.

AMERICAN.
The Mystery Girl is a Paramount production dramatized from the story Green Fanny, now running in the News. Ethel Clayton is the star and carries the part of the mysterious heroine remarkably well.

This is National Gingham Week

At the time the price of silks began soaring, the weavers of Gingham, knowing the possibilities of their product, saw far enough into the future and set out to produce Gingham that would rival silks. They employed the best designers and colorists and with their experienced looms produced a real substitute that had the added advantages of wearability and washability. To still further popularize it they have set aside this week as Gingham Week and ask the leading store to feature those indescribable beautiful creations they have brought into being from a fabric that, not long since, was considered suitable only for aprons, work clothes, etc.

CZECHO-SLOVAK AND RUMANIAN ARMIES MARCHING ON BUDAPEST.

By the Associated Press
GENEVA, April 25.—Czecho-Slovaks have attacked the city of Wlacz, twenty miles northeast of Budapest, which is expected to fall soon. French troops are said to be aiding the Rumanians in their advance in eastern Hungary, according to advices here from Vienna.

CHILD HURT IN FALL FROM AUTO

The little daughter of Mr. and Mrs. G. F. Payne, who live west of Center, fell from an automobile this morning on East Main, striking her head against the pavement. It was thought at first she was seriously injured, but by the aid of a physician the child was quickly revived and suffered nothing more than a bad fright.

CLEAN-UP CONTEST NOW UNDER WAY

In an interview with the president of the Ladies' Auxiliary of the Chamber of Commerce it is learned that the cleanup of the city of Ada has been quite thorough. Many complimentary remarks are heard regarding the improved appearance of the streets and alleys, and the homes and gardens are beautiful.

The mayor says when you have your barrels and boxes of rubbish ready again, he will have another haul made. Seven wagons worked six days in the last haul, adding 152 loads to the dumping ground. Three inspectors for each ward have been named to judge the contest which will close October 1. Signed reports will be given in the judges passing on another ward each succeeding month, thus there can be no claim of favorites when the averages are reported and prizes awarded. If the good work already begun is kept up by everyone, it will be a lively contest and Ada will be kept cleaner through this summer than ever before in her history.

MIGHT VS. JUSTICE.
The Italian delegation to the peace conference evidently thought Wilson's declaration for a fair deal for the small nations was just high sounding subterfuge and not worth the paper it was written on. been for the action of the United States in forcing Napoleon III. to withdraw his troops from Mexico after they had set Maximilian on the throne of Montezuma.

The trouble is that Carranza imagines himself a big man, the equal of George Washington and Woodrow Wilson combined, and having been treated too leniently in times past through Wilson's policy of trying to cultivate the friendship of Mexico, he is feeling chesty and imagines that Mexico is the equal of this or any other nation, hence with a false sense of pride spurns the Monroe Doctrine as an insinuation that Latin-America is not strong enough to repel foreign aggression.

STAND BY THE PRESIDENT.

from the independent.

Woodrow Wilson is more than the president of the United States. He is Ambassador Extraordinary and Minister Plenipotentiary to the World's Court. He is more than a party leader. He is the leader of the liberals of all nations. He is trying to put a stop to the greatest war in history and put into effect the greatest political conception that ever entered the mind of man. He has been placed in the position of arbiter of the destiny of a score of nations and of the happiness of untold generations. He is beset by conflicting claims, harassed and hampered by the most powerful of selfish interests. He is now at the critical point when all may be lost in a moment if those who believe in what he stands for do not stand by him.

No matter whether we like Wilson or not, no matter whether we belong to his party or not, no matter whether we think he deserves his high position or not, whether we think he is competent or not, he is there and if we want to see American ideals victorious and American principles prevail it is only by supporting him that this can be done.

The armistice does not absolve us from our obligation of loyalty to the head of the nation. This is no time for personal spite, private mistrust and partisan politics to come into play. The president is carrying the American flag into foreign lands, into the future. He should have the united backing of the United States. Stand by the president.

A MAN WHO KNOWS.

J. Ogden Armour, one of the big packers in speaking of newspaper advertising says:

"The unit of our national life is the community. On the prosperity of the community depends the prosperity of the nation. Fortunately that community which has a good live newspaper, for its editorial and advertising activities are second to no force in building up and developing its territory."

Our civilization is based on specialization and specialization is based on the finding of a market for the product of the specialist. The newspaper finds this market and develops it, hereby developing the home community, making it bigger and more prosperous and a more satisfying place in which to live.

"Before a newspaper can make itself a power, it has to absorb quantities of money and the best and untiring efforts of its many directors. Its founders had to show their faith in the community because a newspaper, more than any other commercial institution, identifies itself with its locality and lives and grows only through that identification. It is time that we recognize what the founding and developing of the press required on the part of the newspaper pioneers and those now in charge."

BURLISON IS RIGHT.

Postmaster General Burlison complains that he is the victim of a conspiracy on the part of the big papers of the country who are bent on his destruction because of his insistence on the zone rate for papers and periodicals. If there is such a conspiracy the News is not aware of it and we have no criticism to offer on that score. The zone system is a trifling cumbersome, but this or some other system of making the big papers and magazines come across for the service they do is all right. The little papers have had the worst of the deal under the old system and have been subjected to sharp competition by the big ones, especially in the matter of advertising. Much money that has gone to the Eastern magazines will be spent with the local papers if the circulation or rates of the magazines could be sent from New York to San Francisco at the rate of one cent per pound, entailing a great loss to the government. They should pay this loss in all fairness. If they attempt to shift the burden to their subscribers by raising their subscription rates, so much the better for the little papers, for they will lose many subscribers. If they try to raise their advertising rates, the advertisers will give preference to the small papers. We have had occasion to offer a number of criticisms on various acts of Mr. Burlison, but this time we are with him and all other small papers should stick to him in this. However, in this particular instance a strong arm lobby of the big papers came near forcing a repeal of the present rates at the last session of congress, but in conference Claud Kitchin of North Carolina stood pat and declared he would block the entire postoffice bill if the provisions were not stricken out and this was done. The joke is that Kitchin lives in a district where there are no large papers and the big fellows can't exert enough influence with his constituents to get anywhere.

In case Italy persists in her determination to seize the eastern Adriatic coast the United States can make it very unpleasant for the Italians by placing an embargo on food and coal. Italy being largely dependent on this country for these necessities of life. Without this aid Italy will face a serious situation at home.

The army recruiting stations at Both Oklahoma City and Shawnee are making urgent appeals for volunteers. Every volunteer enlisting will release some soldier now on duty in France and the government wants 50,000 as soon as they can be recruited.

200 PUPILS TAKE 8TH GRADE EXAMS.

Supt. Floyd has reports showing that at least 200 pupils in Pontotoc county schools outside of Ada, Roff and Francis are taking the eighth grade examination this year, this being the largest number in the history to take it. From papers already in he thinks a larger percentage than ever before will pass.

Mr. Floyd is considering the matter of arranging a program and holding a county meeting of these pupils at some later day, making this a sort of commencement occasion for the eighth grade pupils.

The increasing number of eighth grade students indicates that educational interest in Pontotoc county is increasing and that more pupils are completing the grammar grades than formerly.

About Roller Skates.

Roller skates were patented and used in France as early as 1819. A few years later an Englishman named Syers patented them and manufactured them in London. Syers' skate consisted of a sandal mounted on five narrow wheels in a single row, so arranged, however, that only two of them could touch the floor at the same time. Several other similar skates were patented in England during the next 30 years.

Sunny Dispositions.

I think it was Carlyle who said: "The man who can laugh way down deep in his diaphragm can never commit murder." And he should have added that the man with a whistling disposition can never be mean, abuse a child, betray a friend or refuse to pay his rent.—Fern Howard, in Milwaukee Sentinel.

Burton Suffered Twenty Years Before Finding the Right Medicine—Tanlac Soon Relieves His Troubles.

B. E. Burton, head salesman in the wholesale fruit and vegetable department at Lutley Bros., Butte, Mont., and living at 662 South Montana St., recently said:

"A few bottles of Tanlac fixed me up after I had spent almost every dollar I earned in the last twenty years trying to get relief from my awful rheumatism. My shoulders, knees and ankles ached so at times that I hardly had any use of myself. I was laid up in bed for six long months, and when I got up again, I had to go about on crutches for three months. My appetite left me, I was constipated and suffered from awful headaches. I would wake up six or seven times during the night racked with pain. I couldn't raise my arms as high as my shoulders and was unable to put on my coat, and my knees were so stiff I could hardly walk."

"I hadn't finished my first bottle of Tanlac before the stiffness began to leave my joints, and now I never suffer a bit of pain or inconvenience. My second bottle gave me a big appetite, that constipation is relieved, I never suffer a bit of pain or have a headache and I sleep like a log all night."

Tanlac is sold in Ada by Gwin & Mays Drug Co.

Bad for Discipline.

"I understand there's a tendency to drop 'Aye, aye, sir, in the navy.' 'That would never do.' 'Of course not. It's one of the traditions of the service. If that sort of thing were encouraged it wouldn't be long before a 'gob' would be saying 'Yep' to an admiral.'—Birmingham Age-Herald.

TODAY'S RELIGIOUS THOUGHT

The Secret of Speed.

"I will run the way of thy commandments, when thou shalt enlarge my heart." Psalms 119: 52.

The enlargement of the heart is the secret of speed. This enlargement of the heart assures an increase of knowledge, an increase of faith, a growth of joy, and an accumulation of love. On life's journey we find ourselves impeded by the nature of the ground over which we travel. The path of obedience is a very difficult way. The traveler is checked by obstructions on the road. The pilgrim is hindered by the burdens he bears. The racer is hindered by superfluous garments worn. Unmastered evils in the heart fetter him. We do not need an easier path to heaven, but we do need enthusiastic hearts. Enthusiastic hearts will smooth down rough places and enable us to win the heights of immortality. We must not live coldly. Let me go on crutches just so I go to heaven. An intensely spiritual life is the secret of heavenward progress and the secret of success on earth. When the fire went out on the altar of the Greeks they relit it at the fires of the sun. If our flickering lights are lighted at the Great Flame in the heart of the Son of God, we cannot fail even though the way be rough and steep.

TENT MEETING AT
CITY PARK TONIGHT

Everyone should hear Rev. A. G. Jeffries under the large tent tonight at 8:30 p. m. in the City Park. The tent is well arranged, curtains to keep out the cold, plenty of oat straw on the ground to make things comfortable for you, so come and hear this man of God, one of the finest speakers in all the country. He is Godly in all his preaching as well as eloquent. To hear him is a treat for Ada.

The singing is to be the very best as we have secured Rev. John Douglas of Peniel, Tex., for our leader. He has a trained voice as well as a gifted one. Come along with us and let's enjoy these meetings. It will do us all good to hear these men of God.

Mrs. Eupha Beasley (Damron) has promised to take care of the piano and help in the singing. Most of the people in Ada know this talented and learned musician and singer.

See us tonight at 8:30 p. m.

Two Letters from Dallas Hough.
Hillesheim, Germany.
January 17th, 1919.

Dear Mother and All:

I will answer your letter of December 23rd which came to me tonight. I was glad to hear from home once more. Received my Christmas box all right, and also your letters of December 8th and 16th a few days ago.

You wanted to know how I got wounded. I was in a shell hole when a big shell came over and fell within about five feet of me, a piece of shrapnel went through my arm and I was slightly gassed. I was in the hospital nearly two months, but you couldn't tell that I had been wounded, am so much heavier than when I went to camp. I am well and getting along fine, have just come off of guard, which duty I perform for twenty-four hours every eight days, being on two hours and off four.

I sent you a letter Christmas day. I had a good time Xmas. Have sent you several letters the last month. Suppose you have read in the papers what the 90th Division has done. The post card is the picture of the town where I am stationed at present. I think we will stay here until we start home, which I hope will not be very much longer.

Frank Watts and Ab Gattis are here in the same town I am.

Your son,
DALLAS T. HOUGH.

Hillesheim, Germany.
March 20, 1919.

Dear Mother:

I will answer your letter I received yesterday. Was glad to hear from you. I have had the supreme pleasure of resting by bonny peepers on the river Rhine and beholding the beautiful city of Coblenz where I stayed three days. I also visited the Kaiser's palace. When I came back here I had nine letters awaiting me. Don't know when I shall get all of them answered. Tell Speck to write to me and not to forget that he was once in Europe, and I like here just as well as he did.

This is a pretty day, however, it has been raining every day for a month. It has been pretty cold over here, at one time the thermometer registered 19 below zero, but I made it fine, didn't get much cold as the wind does not blow here.

An enclosing you our company picture, which signifies that I am in good health and as good as if I had never been wounded. If I grow much more I think I shall be grown when I get home. I weigh 187 pounds.

Our company has taken the vaccination like the one we took in Camp Travis before coming across. I am starting today on a fifteen day furlough, am going to Switzerland. You may not hear from me for some time, as I think we will go back to France before coming home.

Your son,
CPL. DALLAS T. HOUGH.

Presbyterian Social.

On Tuesday, April 22, the ladies of the Auxiliary of the Presbyterian church met in the spacious rooms of the M. R. Chilcutt home for the third social afternoon of the Auxiliary. Several out-of-town visitors were present. After cordial greetings and a period of lively conversation Mrs. Norrell gave several songs. Little Alice Bowman played "Annie Laura" and other melodies. Miss Margaret Chilcutt gave a piano selection and Analee Warren recited some juvenile pieces.

Mrs. Stauffer told us of Mr. and Mrs. Bolivar's first quarrel reminding us of honeymoon days.

Next came the introduction of some unusual varieties of corn and some unusual questions. For instance, "Which of the United States is the largest and most popular?"

Natives of Texas insisted it was that state but married ladies from other sections disagreed. Finally the Texas delegation had to agree that the state of matrimony is even larger and more popular than the Lone Star state.

The hostesses, assisted by Mrs. Chilcutt's daughters served cake and ice cream.

Adding much to the pleasure of the afternoon was the presence of a number of small children who enjoyed the social as much as their mothers and their friends.

Members of the Auxiliary and church should endeavor to attend these monthly socials. In our new western town members of the church meet socially as often as possible in order to feel acquainted and become better able to work together for the upbuilding of the church, the city and His Kingdom.

A prudent mother is always on the watch for symptoms of worms in her children. Paleness, lack of interest in play, and peevishness is the signal for WHITE'S CREAM VERMIFUGE. A few doses of this excellent remedy puts an end to the worms and the child soon acts naturally. Price 30 cents per bottle. Sold by Bart Smith.

CONFERENCE ON RURAL
EDUCATION MEETS MAY 1

A meeting of the Conference on Rural Education will be held at Oklahoma City, May 1, 2 and 3. This is considered a very important meeting and is under the auspices of the national bureau of education. It meets annually in the larger centers and is attended by the leading educators of the nation. The object is to study the problems of rural education and devise ways and means of improving conditions in these schools.

WIDOWER CON-
GRATULATED

"Since my wife's death five years ago, I have suffered greatly from stomach and liver trouble and gas attacks. I lost over 50 lbs., and at times was as yellow as saffron. My doctors could not help me. Six doses of Mayr's Wonderful Remedy have entirely cured me. I have regained my weight and every one is congratulating me how well I look." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co., and druggists everywhere.

ROAD BOND ELECTION

DISCUSSED AT BLUE MOUND
Luther Harrison, W. B. Jones, J. O. Abney and P. H. Deal attended a meeting at Blue Mound school house in the southern part of the county Thursday evening where Senator Harrison spoke in favor of the bonds and V. S. Malone against. Mr. Jones states that the people of the community are very much interested in the matter and that some little good was accomplished.

DON'T LET A COLD
KEEP YOU AT HOME

Dr. King's New Discovery
almost never fails to
bring quick relief

Small doses once in awhile and that throat-taming, lung-splitting, cough soon quieted down. Another dose and a hot bath before jumping into bed, a good sleep, and back to normal in the morning.

Dr. King's New Discovery is well known. For fifty years it's been relieving coughs, colds and bronchial attacks. For fifty years it's been sold by druggists everywhere. A reliable remedy that you yourself or any member of your family can take safely, 60c and \$1.20.

Train Those Stubborn Bowels

Help nature take its course, not with a violent, habit-forming purgative, but with gentle but certain and natural laxative, Dr. King's New Life Pills. Tonic in action, it stimulates the lax bowels. Sold by druggists, 25c.

It Doesn't
Cost Much to Wire
Your Home!

For years you have probably longed to have electricity in your home and denied yourself and family the comforts and pleasures of its use because you thought it a luxury—an expensive household convenience which you could do without.

But electricity is no longer a luxury. It is a necessity, proved by the convenience of such household comforts as the electric toaster, flagiron, coffee percolator, table grill, electric cleaner and other appliances which make easier the many duties of the busy housewife.

The cost of installing electricity is soon repaid in the economy that is yours in the use of the many convenient electrical appliances.

So don't wish any longer for electricity in your home—HAVE IT. The time to act in the matter is RIGHT NOW.

OLD FASHIONED

—Muffin Goodness—
Real muffins—light as a feather
—tasty—so good to look at you
can't wait to bite into them. This is the kind
of muffins you have every time you use

CALUMET
BAKING POWDER

"BEST BY TEST"

Its superior quality meets every baking need. Gives muffins, biscuits and everything you use baking powder with a goodness you probably never knew existed.

Moderate in cost—certain in results—most economical baking powder to use when you want to practice real economy. Stop taking chances of waste and failures. Use a high grade baking powder at a moderate price.

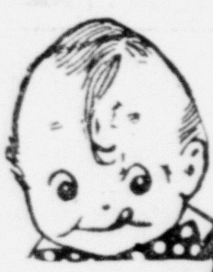

Used in the U. S. Army and Navy. Made in world's largest, finest, most sanitary baking powder factory. What better recommendation could you ask for its reliability?

CALUMET MUFFINS

2 level tablespoonfuls 2½ Level teaspoons Cal-
Sugar 1 Egg umet Baking Powder
3 Level tablespoonfuls short- 2½ Level cups flour
ening 1½ Cup milk or water
1 Level teaspoon salt Lemon and mace flavor

How to Make Them—Cream together ½ cup flour with shortening until light. Beat egg with sugar until firm and add to the creamed flour and shortening, then add the milk. Last mix in balance of flour and baking powder well sifted together. Bake in greased muffin pans.

You will find this a valuable addition to your collection of recipes—cut it out and paste it in your reference book for future use.

The Law Says 16-oz. to a Pound

When you buy a pound of Calumet you get a full pound—16-oz. Some high priced baking powders are now being put on the market in 12-oz. cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.

The County Odd Fellows Association was attended by about 175 visitors, this being the largest meeting on record. The next one will be held at Allen in September.

Thursday evening the degree work was put on and was not concluded until a late hour. After adjournment the association adjourned to the imperial cafe and partook of a generous luncheon.

Mrs. Stauffer told us of Mr. and Mrs. Bolivar's first quarrel reminding us of honeymoon days.

Next came the introduction of some unusual varieties of corn and some unusual questions. For instance, "Which of the United States is the largest and most popular?"

ICE NOTICE.

We Are Trying to Hold the Price
of Ice Down.

Fuel alone cost us 5c per 100 lbs.
more to manufacture ice than it did
last year. Labor, and all material,
has advanced over last year's costs
some items of supplies in steel and
repair parts are quadrupled.

In order to keep the price down
it is necessary that you co-operate
with us, we need help to do this,
and to accomplish this it is neces-
sary to make some changes in our
sales system. In order to properly
check our business we will have
only one price to everybody. Drivers
are not authorized to make
rates.

Use COUPON BOOKS and get the
lowest price. Telephone to the of-
fice or tell the driver the pounds
of ice wanted delivered and he will
give you the price, on the kind of
book suited to your needs.

NESBITT EXPLAINS BOND ISSUE PLAN

By Paul Nesbitt.

Briefly, the plan is this: The gov-
ernor shall appoint a commission of
experienced business men composed
of two democrats and two republi-
cans. The governor shall be ex-offi-
cio chairman of the commission.
That commission shall have the au-
thority to issue bonds to the amount
of \$50,000,000 for the purpose of
building a system of hard-surfaced
roads in the state, the roads to be
designated in the bill upon which the
people vote.

The bonds are to be issued only
as the building requirements demand,
and shall be retired at the rate of
\$2,000,000 each year. It is estimat-
ed that the total amount of the bonds
will not be issued sooner than five
years, and if the building cannot be
completed in that time, a slower rate
of issuance shall be made. Of course
no bonds contemplated in this meas-
ure will draw interest until actually
issued, so, in case \$6,000,000 are is-
sued the first year, interest will be
paid only on that amount of money
for the first year. If only \$10,000,-
000 are issued by the end of the sec-
ond year, the interest will be paid
only upon \$8,000,000 because \$2,-
000,000 will have been retired at the
end of the first year and the inter-
est on the amount stops. If, at the
end of five years, the entire amount
of \$50,000,000 have been issued, we
will then pay interest only on \$42,-
000,000, for the reason that \$8,000,-
000 of the principal will have been
retired.

Raising the Money.

The money to be used for the re-
tirement of the bonds, and to pay
the interest, will be raised by the li-
cense tax on motor driven vehicles,
and such part of the gross produc-
tion tax as will be necessary to make
up the required amount.

We are now taking from the gross
production tax on oil, gas and min-
erals, \$1,000,000 annually, and plac-
ing it on the roads of the state. I
find that there are not many people
who know that this is being done,
and the cry is raised that if we take
the money out of the gross produc-
tion tax to retire the road bonds, the
amount will have to be made up to
the state revenue fund out of the ad
valorem taxes—in other words, we
will have to make the people pay
more money in general taxes to the
state, in order to make up the

amount taken out of the general re-
venue fund in the way of gross pro-
duction taxes. The facts are that we
are already setting aside \$1,000,000
a year out of the gross production
tax and putting it on roads to be
washed away by the rains and blown
away by the winds.

The Automobile Tax.

The automobile tax amounts, in
round figures, to \$1,100,000 per
year. We have enacted a law equal-
izing the automobile and truck taxes
so that it will largely increase the
aggregate amount collected each year
with the increase in the number of
cars that will come about as a mat-
ter of course, especially if we accept
the bond proposition, the motor ve-
hicle tax will soon amount to \$2,-
500,000, and there is little doubt,
estimating upon the basis of other
states, that in four or five years we
will receive over \$3,000,000 annu-
ally. Add to that the \$1,000,000 now
being used from the gross produc-
tion tax, and we will have enough
money to pay the interest on and
retire the bonds.

The problem works out as follows:
We issue \$6,000,000 bonds the first
year. At the end of the year after
issuance, we will pay \$270,000 inter-
est, and retire \$2,900,000 of the prin-
cipal, making a total of \$2,700,000.

We issue \$6,000,000 the second
year. We will then be paying inter-
est on \$10,000,000. We have retired
\$2,000,000 out of the first year's
quota. At the end of the second
year we will pay \$450,000 interest,
plus \$2,000,000 principal, making a
total cost at the end of the second
year at \$2,450,000.

Let us say that we will issue \$13,-
000,000 the third year. That will
make half of the \$50,000,000, or a
total of \$25,000,000 issued. We have
retired \$4,000,000 of the \$25,000,-
000, so that we will be paying inter-
est on \$21,000,000. The interest on
that amount will be \$945,000, plus
\$2,000,000 principal, makes a total
of \$2,945,000 cost at the end of the
third year. Conservative figures
taken from the state highway de-
partment and the figures from other
states indicate that the increase in
automobile and truck taxes alone
will take care of the bonds and in-
terest up to this point.

The Reducing Cost.

We will presume that the remain-
der of the bonds provided for will be
issued in the next two years. It is
not likely, however, that they will
all be issued sooner than six or seven
years. In the fourth year we will is-
sue \$12,500,000. We will then be
paying interest on \$31,500,000. The
interest on that amount will be \$1,-
307,500, plus \$2,000,000 principal,
makes a total of \$3,407,000 cost at
the end of the fourth year. It will
probably take a half million dollars
out of the gross production tax, add-
ed to the automobile tax, to meet the
cost this year. We come now
to the fifth year and issue \$12,500,-

MICHAEL STERN Waist Line Suits at \$35

EVERYBODY LIKES THEM BECAUSE THEY
GO SO WELL WITH ALL FEATURES AND
PHYSIQUES.

The seam that circles the waist has the genial knack of making
men look to themselves as they've often wished they looked to
others.

It's a fine Spring Fashion for a returning hero, and not a bit too
giddy for his 50-year-old Dad.

At \$35 we show mixtures and flannels—plain effects and pat-
terns that for downright all around VALUE are not only what
they seem but about \$5 to \$10 more money's worth than you
have any good right to expect.

—SPRING HATS, IN FELTS AND STRAWS.
—BOSTONIAN SHOES AND OXFORDS.
—SILK SHIRTS, NECKWEAR.

WANT ADS

TOO LATE TO CLASSIFY

WANTED—Experienced chamber-
maids.—Harris Hotel. 4-25-2t

FOR RENT—600-acre farm. In-
quire at Guaranty State Bank.
4-25-3t.

Removing Old Putty.

A great deal of scraping can be
saved, when putty is to be removed,
by brushing over it some nitric or
hydrochloric acid and leaving it for
an hour or two. A brush that is
of no further use should be employed,
as the acid runs it. The putty at the
end of the time will be found softened
to such an extent that little more than
a wipe is needed.

Close-out price on all our ladies'
pattern hats.—Burk's. 4-25-2t

Bring in that picture and let me
frame it for you.—C. A. Cummins.

THE CHEERFUL CHERUB

I wouldn't miss my sorrows
I love both woe and
weal
This statement may
sound foolish—
But that's the way
I feel!

World's Best Climber.

Brogue.

Brogue occurs when an entire popu-
lation of alien blood or tongue acquires
the tongue language of its conquerors
or its subjects or its neighbors, as the
case may be; and acquires it, natu-
rally, with a difference, importing into
the foreign speech many of its own na-
tive peculiarities.

Esque-Franklin.

Mr. Earl Esque of Ada and Miss
Viola Franklin of Sasakwa were
united in marriage Thursday even-
ing at 8 o'clock. The ceremony took
place at the home of Rev. B. F. Ste-
